LANGUAGES

English 

PROFILE

Having gained two and a half years' work experience in telecommunication industry as a Software Test Engineer upon my graduation, I have now been working as a Technical Analyst at a company in Fintech since March 2023.

I am a solution-oriented and self-motivated team player, who has strong interpersonal skills to establish effective communication and collaboration with my co-workers in order to achieve desired goals. I am willing to learn more about new technologies and share the knowledge and experience I gained with team members.

WORK EXPERIENCE

Business Analyst

PARAMTECH

March 2023-Present

In my present role, I am mainly responsible for making a technical analysis of the received demands from the product team and testing their functional and non-functional requirements.

Software Test Engineer

VODAFONE

October 2021- March 2023

Following the first six months of my employment, I was part of the Regression Team to get familiar with the domains and executed the functional test cases (Web, Mobile, CRM). After six months I undertook an active role in the MVA (Mobile Application namely My Vodafone) team at Vodafone. Being a member of a global team, I had the opportunity to work and interact with people from different countries in English, being our language of internal communication.

Below are my additional duties and responsibilities over the one and half years:

- Writing simple to hard complexity SQL queries
- Specializing in the automation of Web and API applications using frameworks such as Selenium, Rest Assured, TestNG, Cucumber etc.
- Creation of test scenarios and analysis through project scope
- Usage of Postman for backend services
- Working with development teams to investigate and correct bugs and deficiencies based on testing results
- Worked both on Agile & Scrum

Software Test Engineer

TURK TELEKOM

February 2021- October 2021

Network Engineer (Intern)

NETAS

September 2020-October 2020
